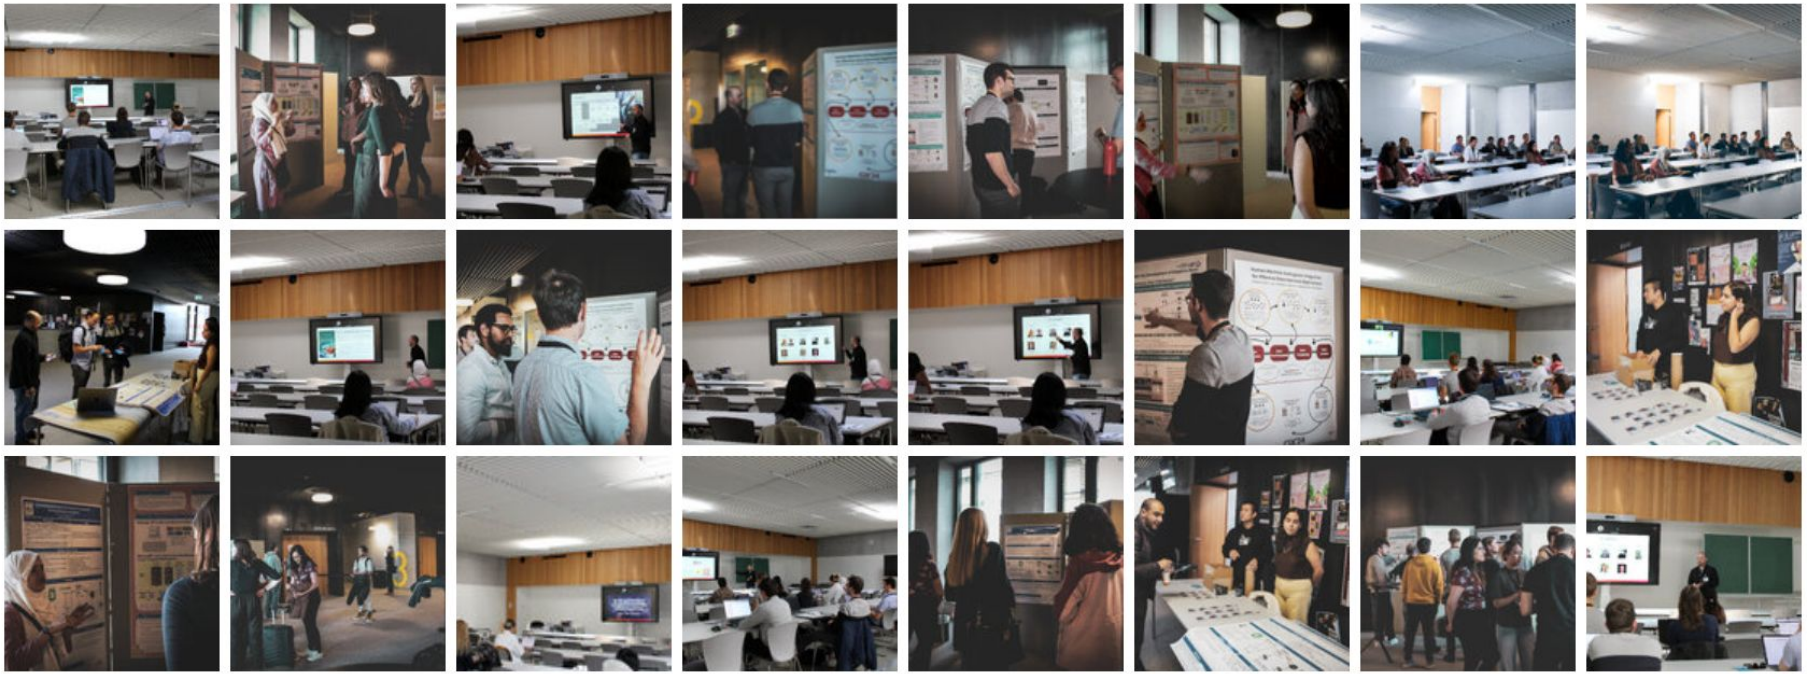
Day 1 | Day 2 | Day 3 | Day 4 | Day 5



Sessions recap

Optimization methods for interface design and adaptation

Modeling and understanding user interfaces from pixels

Charting the routes of thoughts in LLM-empowered conversational interactions

Supporting rich interactions in mixed reality

Parameterization and Selection of Behavioural Models

Augmenting Ideation and Sensemaking in the age of LLMs

Forward and inverse modelling in input

Our speakers

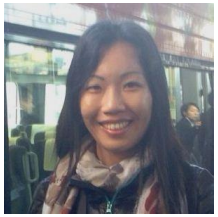
Tuesday

Anna M. Feit

João Belo

Amanda Swearngin

Wednesday



Xiaojuan Ma

John Dudley

Thursday

Gilles Bailly

Gonzalo Ramos

Friday

John H. Williamson

Organizers

Chairs

Luis A. Leiva

Bereket A. Yilma

Student volunteers

Kayhan Latifzadeh

Fan Xu

Inês C. Oliveira

Secretariat

Delphine Felly

Andrea Puech

Advisors

Anna M. Feit

Antti Oulasvirta

Our labs tour hosts

VR/AR/XR lab

Jean Botev

Sahar Niknam

Swarmlab

Grégoire Danoy

Florian Felten

HCI lab

Sophie Doublet

COIN lab

Saravanakumar Duraisamy
